

Capacity Range:
20 to 30,000 scfh gas

Gas Cocks

Gas cocks are small, adjustable valves engineered for dependable operation. These valves come in a range of sizes and some of the larger ones have UL/CSA approvals and listings.

How It Works

For gas trains requiring manual shutoff or modulating control, these rugged valves come in a broad range of sizes to fit many different pipes.

Applications:

- Any gas train that requires manually operated shutoff or modulating control
